

It is time to get back to school. It's almost been a year since COVID 19 changed our lives and without being in school, it is going to be a challenge to make up the work but together we can do it!

Being in school enables you to work directly with your teachers, get some tutoring, make up work you missed and get back on the graduation track. You can even decide to come to school a couple days each week until you and your parents feel comfortable, but we can guarantee you that you will do better at school.

We are eager to see you on campus starting 8:30 AM. M-F. Our medical advisory committee composed of experts in the field of COVID 19 has reviewed our plan to ensure student and teacher safety and agree that allowing students to return to school in-person is important so students can continue to learn and for seniors to graduate. Graduation for both the Class of 2020 and the Class of 2021 is set for May 26, 2021. Students can still make up any work they missed and fill their learning gap before then. Attendance each and every day is imperative to achieve their educational goals. If your student is returning to in-person instruction, please be sure they return their Chromebook and "hot spot" when they return to school.

YOU HAVE CHOICES! Although it is clear that being at school, students learn more and achieve better results, we also know that some parents are still concerned about COVID 19 and may want to have their children remain on remote instruction. If that is your decision that is OK and we will still be providing remote instruction as well, but in-school learning is better. If your student is going to continue working from home, remember that school is still 8:30 AM to 3:00 PM even with remote instruction.
