

RITE NOW @ ROP

90% Vaccinated at Southwest Leadership Academy

Southwest Leadership is an Arizona Charter school and has been operating in a hybrid arrangement for the entire year. Some students are physically on site and many are home using the Chromebooks the school provided. Teachers are broadcasting their lessons to students at home and school simultaneously using some new equipment that SLA has provided staff. Students get the same lesson and same interaction whether they at school or at home. It worked!

SLA teachers are highly committed to be sure their students as well as their own families stay healthy so more than 90% of the entire SLA staff of 30 people have been fully vaccinated against COVID-19. Through the encouragement of Principal Dr. Greg Fowler, the ROP sponsored onsite clinic and the support of the SLA School Board, almost everyone rolled up their sleeves twice and took their Moderna shot for their own health and that of their students. SLA is very proud to be among the highest, if not the highest, vaccination rate for staff at all ROP sites.

Congratulations to the SLA staff. To this day, staff and students are still wearing their facial coverings taking no chances with this angry virus. SLA still fogs every classroom every day to sanitize the facility and with the staff vaccinations we feel good that SLA is very safe to go to school, even during a pandemic.
