

# ADOPT A DRONE PILOT AND HELP CREATE JOBS FOR THE FUTURE

Southwest Leadership Academy is launching a new class for students that will teach them how to build, fly and repair drones. The class is offered through WOZ University—a program developed by co-founder of Apple, Steve Woznaick—and will provide our students with the unique skills they need for a future career in the Tech industry.

By “adopting a drone pilot” or making a charitable donation, you can give the gift of education and a bright future that will enable students to chart their course in life through highly sought after careers. The drones purchased will be used throughout the WOZ University course, and then gifted to students once they complete the course so that they can continue to learn and practice their new skills with a drone outside of the classroom.

For every \$200 raised, one student will receive a drone enabling them to participate in the course. You can support the program by making a donation in any amount, or with a \$200 donation, you can “adopt” one of our drone pilots.

*Southwest Leadership Academy* is dedicated to improving academic outcomes for at-risk students by providing an alternative educational program and supportive school environment that includes academic and social skills instruction that lead to student success in school, in their lives and within their community.
