Foster Care Transportation Policy

Entity ID: 92043 | CTDS 078228000 | Southwest Leadership Academy

- Southwest Leadership Academy will provide transportation to any children in foster care during the BID process via school vans or reputable third-party transportation, and/or provide bus passes. Funding will be provided via state and local funding sources of SLA.
 - If a third-party provider is needed at the time and funding permits Southwest Leadership Academy will provide funding with the expectation of the CWA reimbursing once the BID process is completed.
 - However, this will be in collaboration with the CWA, so we will determine per situation cost splitting if necessary.

- Once the BID meeting determines transportation needs, arrangements will be made promptly.
 - If the student resides more than 12 miles from the school and 3rd party transportation is needed, then the CWA would have to fully fund the service for the student being that this would be an additional cost for the LEA.
 - If a student is within the 12-mile radius and still needs 3rd party transportation services, then the LEA will request that the CWA split the cost of the services with them.
 - If a student resides close to the school, then the LEA will transport them in school vans or provide bus passes. Any other additional cost that may arise the LEA will seek reimbursement from the CWA.
